

Wear Blue & Yellow to school on

THURSDAY, MARCH 21, 2024

In honor of World Down Syndrome Day, please join us in raising awareness about Down Syndrome by wearing blue and gold/yellow on Thursday, March 21. — Dr. Harris

World Down Syndrome Day (WSD), March 21, is a global awareness day which has been officially observed by the United Nations since 2012.

Down Syndrome International (DSi) encourages supporters to raise awareness of what Down syndrome is, what it means to have Down syndrome, and how people with Down syndrome play a vital role in our lives and communities.

Why 21 March?

The date for WSD – the 21st day of the 3rd month – was selected to signify the uniqueness of the triplication (trisomy) of the 21st chromosome, which causes Down syndrome.
